

AXIS ARCHITECTURE

We offer a wide range of architectural services from a simple feasibility study through to a full service including planning, building regulations and building contract management.

Our portfolio ranges from domestic extensions to multi-million pound developments, which include new build, refurbishment and work to historic buildings.

We use 'state of the art' digital technology and computer aided design, for fast and accurate production of design drawings, graphics and technical information.

Our design and technical teams are highly trained, highly skilled and highly motivated.

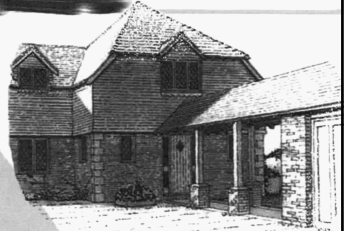

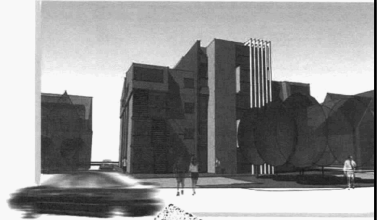

Our focus is on practical, sustainable and environmentally friendly buildings that are a joy to their users and fit well in their community.

We work closely with our Clients to understand their requirements, budgets and timescales. Our goal is to exceed our Clients' expectations and provide value for money.
